

Product Warranty

Rockcote Resene Ltd (“Resene Construction Systems”) warrants for a period of 15 years from the date of purchase that the components of the INTEGRA Lightweight Concrete Intertency System (the “Product”), will be free from defects subject to compliance with the conditions below, to the extent, set out in Resene Construction Systems relevant published literature current at the time of installation. Resene Construction Systems warrants for a period of 15 years from the date of purchase that the materials supplied by Resene Construction Systems will be free from defects due to defective factory workmanship or materials.

Nothing in this document shall exclude or modify any legal rights a customer may have under the Consumer Guarantees Act or otherwise which cannot be excluded or modified at law.

CONDITIONS OF WARRANTY:

The warranty is strictly subject to the following conditions:

- a) Resene Construction Systems will not be liable for breach of warranty unless the claimant provides proof of purchase and makes a written claim either within 30 days after the defect would have become reasonably apparent or, if the defect was reasonably apparent prior to installation, then the claim must be made prior to installation;
- b) this warranty is not transferable;
- c) the Product must be installed and maintained strictly in accordance with the relevant Resene Construction Systems literature current at the time of installation and must be installed in conjunction with the components or products specified in the literature. Further, all other products applied to or used in conjunction with the Product must be applied or installed and maintained strictly in accordance with the relevant manufacturer’s instructions and good trade practice;
- d) the project must be designed and constructed in strict compliance with all relevant provisions of the current New Zealand Building Code (“NZBC”), regulations and standards;
- e) the claimant’s sole remedy for breach of warranty is (at Resene Construction Systems option) that Resene Construction Systems will either supply the replacement product, rectify the affected product or pay for the cost of the replacement or rectification of the affected product;
- f) Resene Construction Systems will not be liable for any losses or damages (whether direct or indirect) including property damage or personal injury, consequential loss, economic loss or loss of profits, arising in contract or negligence or howsoever arising. Without limiting the foregoing Resene Construction Systems will not be liable for any claims, damages or defects arising from or in any way attributable to poor workmanship, poor design or detailing, settlement or structural movement and/or movement of materials to which the Product is attached, incorrect design of the structure, acts of God including but not limited to earthquakes, cyclones, floods or other severe weather conditions or unusual climatic conditions.
- g) all warranties, conditions, liabilities and obligations other than those specified in this warranty are excluded to the fullest extent allowed by law;

Disclaimer: The recommendations in Resene Construction Systems literature are based on good building practice, but are not an exhaustive statement of all relevant information and are subject to conditions (c), (d), (f) and (g) above. Resene Construction Systems has tested the performance of the product when installed in accordance with our Technical Literature, in accordance with the standards and verification methods required by the NZBC and those test results demonstrate the product complies with the performance criteria established by the NZBC. However, as the successful performance of the relevant system depends on numerous factors outside the control of Resene Construction Systems (e.g. quality of workmanship and design) Resene Construction Systems shall not be liable for the recommendations made in its literature and the performance of the relevant system, including its suitability for any purpose or ability to satisfy the relevant provisions of the NZBC, regulations and standards, as it is the responsibility of the building designer to ensure that the details and recommendations provided in the relevant Resene Construction Systems installation manual are suitable for the intended project and that specific design is conducted where appropriate.
