Resene ______Construction Systems

XTHERM[™]GOLD MASONRY OVERLAY

The contemporary, durable and energy efficient choice for your project.

XTHERM™ GOLD masonry overlay system provides complete external thermal 'out'sulation whilst protecting the structure and those inside from what mother nature throws at it.

Thermal insulation is one of the most important decisions made in achieving an energy efficient and sustainable project.

Proven Technology

The XTHERM™ GOLD Masonry
Overlay System, our exclusive
ultra high density, GOLD PIR
(Polyisocyanurate) fire retardant
insulation panels, providing
far greater thermal insulation
and hardness than traditional
insulation boards. Our XTHERM
GOLD panels are fixed directly over
masonry/concrete walls creating
an unbroken layer of 'out'sulation
which we consider to be the most
efficient method to keep the warmth
in and the cold out.

The XTHERM™ GOLD insulation is a complete system incorporating a lamina of hand applied modified plaster coatings, full surface fibreglass reinforcement, styled with your choice of textures from ROCKCOTE or Plaster Systems all finished with Resene protective coatings in your favourite Resene colours.

Attractive and Durable

XTHERM™ GOLD carries our written 15 year Performance Guarantee, and 5 year Workmanship Warranty from your qualified LBP Registered Plasterer. The XTHERM™ GOLD Masonry Overlay system includes our exclusive OnSite Quality Assurance programme providing surety of performance from installation through to the finish.

Innovative design.
Integrated systems.
Enduring finish.

XTHERM[™]GOLD MASONRY OVERLAY

System Features

- + XTHERM™ GOLD 'Out'sulation board 50mm / 75mm / 100mm
- + Extra High density / 35kg/m3
- + Complete thermal envelope
- + Breathable system
- + Hand Plastered
- + Fibreglass reinforced
- Crack resistant plaster technology
- + Professional Registered
 LBP supply & install
- + Performance Guarantee
- + 'Genuine' Resene Colour
 Range
- + OnSite Quality Assurance

Thermal Performance

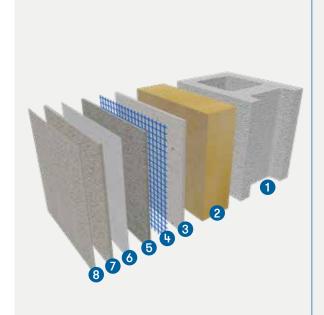

- + **R2.3** @ 50mm
- + **R3.5** @ 75mm
- + **R4.7** @ 100mm

- 1 Masonry Block / Solid Concrete
- 2 XTHERM™ GOLD 'Out'sulation Board
- 3 Base Plaster
- 4 Fibreglass Reinforcement
- 5 Levelling Plaster
- 6 Resene Limelock
- 7 Texture Style
- 8 Resene X200
