

CERANO

**Bring your design ideas to life
with ROCKCOTE Cerano.**

Achieve a smooth concrete look finish or low lustre finish for external or internal walls of your project,

Cerano has been specially formulated to achieve a smooth finish, ideal for creating the on trend concrete look or an off-form concrete look over a wide variety of substrates.

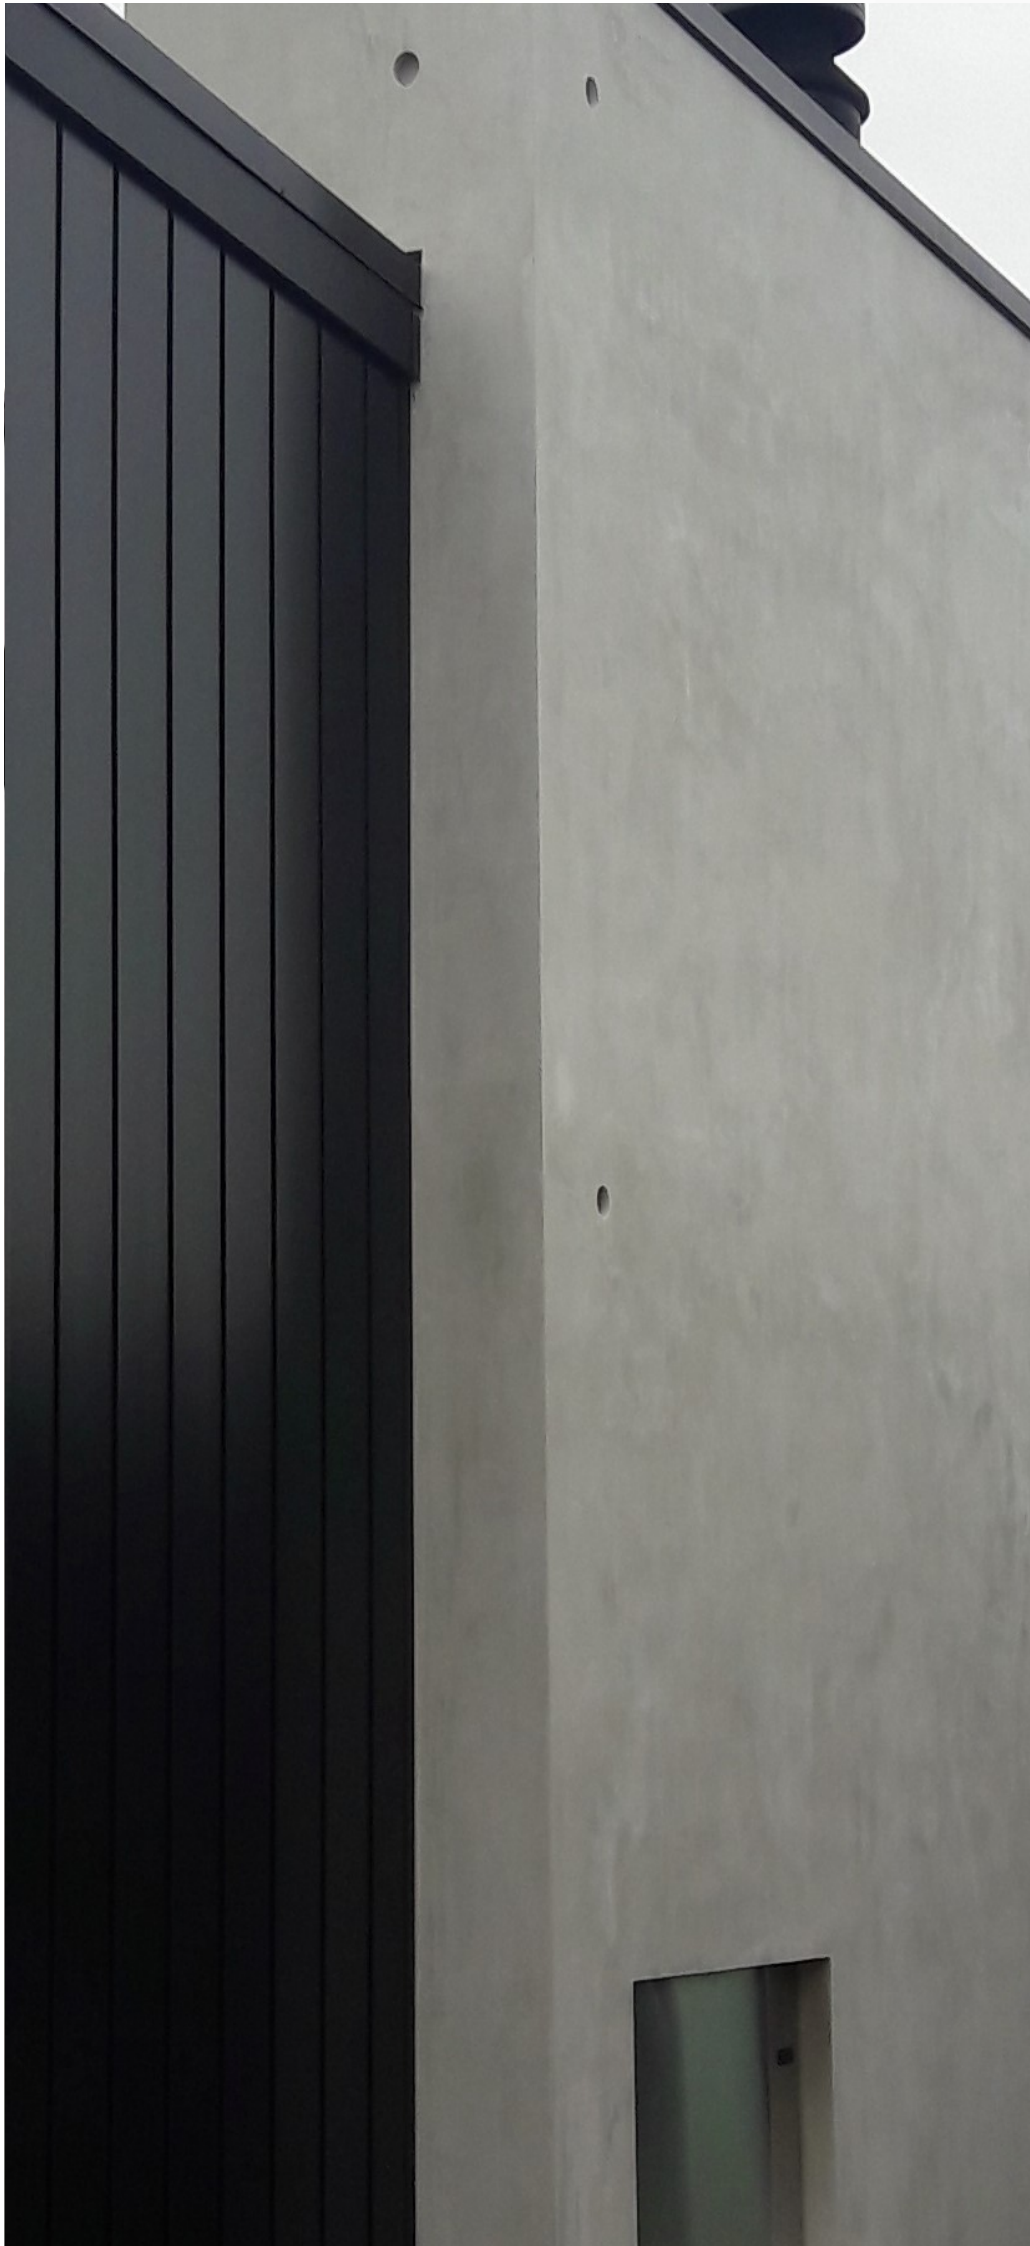

ROCKCOTE Cerano delivers the exceptional performance you have come to expect of our acrylic coloured plaster finishes: it's tough and flexible with a durable finish and full, rich Resene colour.

Highly versatile, Cerano is ideal for introducing different textures or finishes to your project.

ROCKCOTE Cerano is applied by hand to prepared Interior or Exterior surfaces delivering a smooth, textural concrete effect.

A two coat Interior System, or for the exterior we add an additional coat of Rockcote Polymer render and finishing coats of Resene Concrete clear for enhanced durability and protection from the elements.

**Innovative design.
Integrated systems.
Enduring finish.**

CERANO

Cerano particularly suitable for creating a full range of grey colours from light concrete greys to charcoals. If you want some more colour select from a range of colours within Resene The Range White & Neutrals.

Cerano is suitable for use over most common, prepared substrates - as it is a finishing coat, needs to be applied over a smooth, level substrate. Your Rockcote Plastering contractor can discuss these requirements with you.

Effect :

Smooth, soft texture consistent concrete look similar to trowel finished off-form concrete

A subtle patina achieved by trowel application technique.

A moody look for a bold statement

Your Rockcote registered plasterer will create samples for you in your selected colours.
